

Sotiris Kavvouras

SOFTWARE ENGINEER · BACKEND & CLOUD SPECIALIST · CONSULTANT

Tel +30 695 668 8252 | Mail sotos.kavvouras@gmail.com | GH SotirisKavv | in sotiris-kavvouras

Profile

Detail-oriented Backend & Cloud Engineer with 3+ years of professional experience building scalable, distributed systems, event-driven architectures, and RESTful APIs. Strong foundations in Go, Java, and Python with hands-on exposure to Kubernetes, microservices, Docker, observability, and international delivery. Proven track record in designing and delivering backend services, optimizing deployments, and solving complex technical challenges in production. Passionate about cloud native engineering and reliable systems.

Education

Technical University of Crete

Integrated MSc in Electrical and Computer Engineering

Chania, Greece

Sept 2017 – Mar 2024

- Graduated with Honours (GPA: 8.76/10)
- Relevant Coursework: Data Structures & Algorithms, Distributed Systems, Cloud & Fog Computing, Machine Learning
- Thesis Subject: "Magnetoencephalogram analysis of subjects with mild head injuries using multilevel connectivity networks and graph neural networks"

Experience

Deloitte Digital

Software Engineer - Consultant

Athens, Greece

Jul 2024 – Present

- Presentation of complex IT concepts to non-technical team members, ensuring clear understanding and collaboration.
- Junior staff mentoring on project-based work, providing guidance on Salesforce development best practices and fostering a collaborative team environment.
- Working with cross-functional teams to integrate Salesforce solutions with other business systems.

Chania, Greece and Athens,
Greece

Software Engineer - Business Analyst

Aug 2022 – Jul 2024

- Development and optimization of backend solutions that enhance Salesforce application performance, focusing on scalability and security.
- Proficiency in creating customized solutions in Salesforce, specializing in CPQ (Configure, Price, Quote), Marketing Account Engagement, Case Management and Field Service modules to enhance business processes and user experience.

Selected Projects

Homelab Platform & AI Fitness Tooling

Personal

Private infrastructure

2025 - Present

- Built and maintain a cloud-native homelab on a VM-hosted k3s cluster, managing Kubernetes deployments, Helm-based services, and internal platform routing.
- Deployed a custom Go backend for API health monitoring alongside Mealie, Linkding, and Jellyfin, using Homearr as the central service portal.
- Currently designing OpenAI-powered backend services for workout logging and next-day WOD suggestions, evaluating FastAPI and C# .NET Core architectures for future implementation.
- **Technical Skills:** Go, C# .NET Core, FastAPI, CI/CD, Kubernetes, Helm, OpenAI API.

Event-Driven Food Delivery System

Personal

Github link

2025

- Built a production-style event-driven food ordering platform in Go, applying Saga choreography across gateway, inventory, payment, and restaurant services.
- Implemented Kafka-based domain event flows with the Transactional Outbox pattern, partition-ordered consumers, retry backoff, and DLQ handling for resilient distributed processing.
- Used PostgreSQL as the system of record, Redis for ephemeral payment/cache data, and Docker Compose for local multi-service orchestration.
- **Technical Skills:** Go, Gin, Kafka, PostgreSQL, Redis, Docker Compose, Event-Driven Architecture, Distributed Systems, Saga Pattern, Transactional Outbox.

3D Tower Defense Game

[Github link](#)

Technical University of Crete

2019

- Developed a 3D Tower Defense game in Unity (C#), implementing core gameplay systems including enemy waves, turret targeting, resource management, and UI state handling.
- Applied object-oriented design and modular scripting practices to structure gameplay logic and support future extension.
- **Technical Skills:** Unity3D, C#, OOP, Game Development, Software Architecture, Git.

Volunteering

Board of European Students of Technology (BEST)

Chania, Greece (On-Site)

Executive Secretary and IT Responsible

Nov 2019 – Jul 2023

- Led strategic planning, operational coordination, and comprehensive IT infrastructure management. Coordinated stakeholder engagement with students, companies, and academics across Europe to deliver high-quality events and projects.

Technical University of Crete

Chania, Greece

Robotics Engineer

Jan 2018 – Jan 2019

- Programmed NAO humanoid robots to compete in the World Robotics League football competition, implementing autonomous decision-making algorithms, motion control systems, and real-time object recognition for dynamic gameplay scenarios.

Scouts of Greece

Greece

Leader

2005 – 2022

- Led youth development programs focused on civil rights advocacy and social action initiatives. Organized community service projects, coordinated educational activities, and mentored youth members in leadership skills and civic responsibility.

Skills

Web Development	Go (Golang), Java Spring Boot, Django, FastAPI, C# .NET Core, RESTful APIs, gRPC, GraphQL, Microservices, Event-Driven Architecture, Apache Kafka, RabbitMQ, React
Cloud & DevOps	Docker, Kubernetes, Container Orchestration, AWS (Amazon Web Services), GCP (Google Cloud Platform), CI/CD, Linux/Unix, Git, Version Control
AI & Machine Learning	Python (Pandas, PyTorch, NumPy, Scikit-learn), Machine Learning, Deep Learning, Neural Networks, Graph Neural Networks, CNN, Feature Engineering, Data Analysis
Programming	Go (Golang), Python, Java, C#, SQL, JavaScript, C/C++, PHP, Ruby (Ruby on Rails)
Enterprise & Tools	Salesforce Development, Salesforce CPQ, API Integration, Agile Methodology, Software Architecture, Data Structures, Algorithms
Soft Skills	Mentoring, Teamwork, Cross-Functional Collaboration, Technical Documentation, Problem Solving, Communication

Certifications

- 2025 **Salesforce Certified Agentforce Specialist**, Salesforce
- 2024 **Salesforce Certified Javascript Developer**, Salesforce
- 2022 **Salesforce Certified Platform Developer I**, Salesforce
- 2025 **AI Coding**, Workearly
- 2025 **Foundational C# with Microsoft**, freeCodeCamp

Languages

English	C2 - Advanced proficiency
French	B2 - Professional proficiency
Greek	Native proficiency
