

Sotiris Kavvouras

SOFTWARE ENGINEER · CONSULTANT · SYSTEM ADMINISTRATOR

📞 +30 695 668 8252 | ✉️ sotos.kavvouras@gmail.com | 🌐 SotirisKavv | 📄 sotiris-kavvouras

Profile

Detail-oriented Backend & Cloud Engineer with 3+ years of professional experience building scalable, distributed systems, event-driven architectures, and RESTful APIs. Strong foundations in Go, Java, and Python with hands-on exposure to Kubernetes, microservices, Docker, observability, and international delivery. Proven track record in designing and delivering backend services, optimizing deployments, and solving complex technical challenges in production. Passionate about cloud native engineering and reliable systems.

Education

Technical University of Crete

Chania, Greece

Integrated MSc in Electrical and Computer Engineering

Sept 2017 – Mar 2024

- Graduated with Honours (GPA: 8.76/10)
- Relevant Coursework: Data Structures & Algorithms, Distributed Systems, Cloud & Fog Computing, Machine Learning
- Thesis Subject: "Magnetoencephalogram analysis of subjects with mild head injuries using multilevel connectivity networks and graph neural networks"

Experience

Deloitte Digital

Athens, Greece

Software Engineer - Consultant

Jul 2024 – Present

- Presentation of complex IT concepts to non-technical team members, ensuring clear understanding and collaboration.
- Junior staff mentoring on project-based work, providing guidance on Salesforce development best practices and fostering a collaborative team environment.
- Working with cross-functional teams to integrate Salesforce solutions with other business systems.

Chania, Greece and Athens, Greece

Software Engineer - Business Analyst

Aug 2022 – Jul 2024

- Development and optimization of backend solutions that enhance Salesforce application performance, focusing on scalability and security.
- Proficiency in creating customized solutions in Salesforce, specializing in CPQ (Configure, Price, Quote), Marketing Account Engagement, Case Management and Field Service modules to enhance business processes and user experience.

Volunteering

Board of European Students of Technology (BEST)

Chania, Greece (On-Site)

Executive Secretary and IT Responsible

Nov 2019 – Jul 2023

- Led strategic planning, operational coordination, and comprehensive IT infrastructure management. Coordinated stakeholder engagement with students, companies, and academics across Europe to deliver high-quality events and projects.

Technical University of Crete

Chania, Greece

Robotics Engineer

Jan 2018 – Jan 2019

- Programmed NAO humanoid robots to compete in the World Robotics League football competition, implementing autonomous decision-making algorithms, motion control systems, and real-time object recognition for dynamic gameplay scenarios.

Scouts of Greece

Greece

Leader

2005 – 2022

- Led youth development programs focused on civil rights advocacy and social action initiatives. Organized community service projects, coordinated educational activities, and mentored youth members in leadership skills and civic responsibility.

Selected Projects

Event-Driven Food Delivery System

Github link

Personal

2025

- Architected and implemented a distributed microservices application using Go, demonstrating event-driven design and the Saga pattern for transactional reliability.
- Built modular services with gRPC and REST interfaces, containerized via Docker, enabling scalable service interaction.
- Integrated PostgreSQL as persistent storage and Redis for lightweight state caching, optimizing throughput and fault tolerance.
- Structured clear documentation and architecture diagrams to articulate service boundaries, event flows, business logic, and error handling mechanisms.
- **Technical Skills:** Go Lang, gRPC, REST, Docker, PostgreSQL, Redis, Event-Driven Architecture, Saga Pattern, Docker, Containerization/Orchestration.

3D Tower Defense Game

Github link

Technical University of Crete

2019

- Designed and developed a 3D Tower Defense game in Unity (C#) demonstrating software architecture, OOP design, and real-time interactive systems — including multiple turret types, enemy wave progression, resource management, camera controls, and UI states (menu, pause, game over).
- Implemented core gameplay mechanics such as enemy pathing, turret targeting & shooting logic, resource economy, and progressive difficulty waves, applying clean code practices and modular component design.
- Integrated game state management and event handling for dynamic game progression and interactive feedback loops, enabling strategic player decision-making under load.
- Applied version control (Git) and documented game structure, mechanics, and scripting logic for maintainability and potential future extension.
- **Technical Skills:** Unity3D, C#, OOP, Game Development, Real-Time Systems, Software Architecture, Version Control (Git).

Skills

Web Development	Go (Golang), Java Spring Boot, Django, FastAPI, C# .NET Core, RESTful APIs, gRPC, GraphQL, Microservices, Event-Driven Architecture, Apache Kafka, RabbitMQ, React
Cloud & DevOps	Docker, Kubernetes, Container Orchestration, AWS (Amazon Web Services), GCP (Google Cloud Platform), CI/CD, Linux/Unix, Git, Version Control
AI & Machine Learning	Python (Pandas, PyTorch, NumPy, Scikit-learn), Machine Learning, Deep Learning, Neural Networks, Graph Neural Networks, CNN, Feature Engineering, Data Analysis
Programming	Go (Golang), Python, Java, C#, SQL, JavaScript, C/C++, PHP, Ruby (Ruby on Rails)
Enterprise & Tools	Salesforce Development, Salesforce CPQ, API Integration, Agile Methodology, Software Architecture, Data Structures, Algorithms
Soft Skills	Mentoring, Teamwork, Cross-Functional Collaboration, Technical Documentation, Problem Solving, Communication

Certifications

2025	Salesforce Certified Agentforce Specialist, Salesforce
2024	Salesforce Certified Javascript Developer, Salesforce
2022	Salesforce Certified Platform Developer I, Salesforce
2025	AI Coding, Workearly
2025	Foundational C# with Microsoft, freeCodeCamp

Languages

English	C2 - Advanced proficiency
French	B2 - Professional proficiency
Greek	Native proficiency
